The perfect choice when maximum natural light and security are essential.

The standard Stile Door Leaf has a 4" visual perimeter by 1-1/4" thick and can be incorporated into any of our door frames. Wider Stiles are available upon request.

This is the ideal system to incorporate your desired security package and at the same time, allow as much natural light into your office space as possible.

Hinges or offset pivots can be used in association with a wide range of hydraulic closers.

American Standards

- Sound Measurements
- Sound Rating
- Structural Stability
